### Jodie 3rd in Australian Open 100km Champs

MAWA's W40s are ascendant around the world these days. Following Bernadette Benson's fantastic Coast to Kosciusko success (reported in January), Jodie Osborne flew to Canberra with some trepidation, heading for her first 100km race.

What's more, she would be up against the best senior athletes in Australia – male and female.

#### Night run

Racing in the Stromlo Forest Park on a 1km circuit overnight, she saw off most of her competitors, finishing third overall in 9h13m18s!

With intermediate splits taken at 50km and 6-hours, she also broke the Australian W40 6-hour record on the way. Immediately after the race she told us:

"This was my first experience of anything like this, and I was amazed – but felt right at home straight away."

## Handicap Trophy to change

IN AN attempt to make the club's handicap trophy more competitive, the committee have decided to change the way it's run.

The following arrangements will be in place for the 2013-2014 trophy, which starts with the UWA Track Handicap on Thursday, April 18.

● There will be eight qualifying events for the run handicap trophy. They are: Track Handicap 10k, Aquinas 10k, Sharks 10k, Nedlands 5k, Cliff Bould 10.4k, Canning Caper 10k, East Perth 6.5k, and Woodman Point 5k.

● To qualify for the trophy, members must complete at least five of these runs. Your best five results count towards the trophy. The runner's finishing positions in each of these five events are then totalled. The winner is the person with the lowest score.

● The trophy is NOT gender based.

● There are specific trophies for the Aquinas and Cliff Bould events.

#### Walkers

The walkers have no overall handicap trophy. They will have three handicap events – Aquinas, Racecourse, Age-Graded – and each of these has a specific trophy for the event.

## Pick a date – or two!

IF you're a Sunday morning competitor, joining us for the first time or renewing your membership, you have one important duty to perform!

Please go the new race programme, which runs from May 2013-April 2014, and choose the two dates on which you will help with an event.

A copy of this new programme is on our website.

Please do not select Group Jogs, Christmas Gift, Perth Marathon, 6-hour relay or Track Handicap unless you wish to help – IN ADDITION to your two Sunday mornings.

Thank you.

Gillian Young

## AGM – P3

## Bernadette in Aussie 24hr team

BERNADETTE Benson, certainly MAWA's top female endurance runner, has been selected for the six-strong Australian team in the 24-hour World Championships.

The 24-hour race is organised by the IAU (International Association of Ultrarunners) and sanctioned by the IAAF. It will take place in Holland on 11-12 May.

Bernadette arrived from her native Canada five years ago and became an Australian national in 2012.

In December she was female winner of the 240km Coast to Kosciusko ultra, in the fastest time ever by an Australian woman. This pedigree has been recognised by the selectors, and she joins

Mandurah-based Dave Kennedy to represent her new country in Holland.

## Gotta have rules!

HAVE you entered the Championships? If so, the article in this month's TFNL concerning the rules and etiquette of competing is essential reading. Have a look at it on the website. A copy of the text will also be available at ECAC and WAAS.

## You Write...

### Frozen welcome to the UK

Hi Vic,  
ARRIVED safely on January 20, though the taxi ride from Heathrow to our 'exchange home' in Camberley, Surrey was cut short by about 80 metres (sorry 85yards) by our driver, who deemed driving down a steep hill to the front door too dangerous on a frozen road.

So at 5.45am, in the dark, we trundled down the hill, crunching our way on snow, to our abode for a fair slab of the next six months.

Pleased to report that we are in a delightful area. Surrounded by lovely, undulating woodlands, pathways and roads which makes for plenty of variety for the daily jog.

Have done very little running on turf thus far as the 'going' has been extra heavy and muddy. (Thanks for your warning back in December, Vic.)

Have been following the WAMA results with interest via the online magazine, as well as results of road and track. Times appear to be coming down as the State Champs get nearer.

### 'Legendary Jim'

I WAS vastly impressed to read in the February edition that Jim Langford was able to run 100 miles per week in his 30's. I also was in my (much lesser) prime then too, but was never able to run more than 40 miles per week before complete exhaustion set in!

On this total I achieved a handful of half marathons under 90 minutes and some 10 milers under 65 minutes of which I am (I think justifiably) proud.

Nowadays, approaching the 65-69 age band, I usually do five runs a week totalling about 30kms. I'd be interested to know what kind of distances club members of my age are now doing and whether they're more or less than mine!

Michael Anderson

**Through ice, snow, and mud – real British cross-country! – Giovanni is spruiking Perth and our forthcoming 2016 World Championships. He's also aiming to pinch a Park Run age-group record.**

#### Park Runs

I joined the Camberley and District AC last week, but there won't be any competition for a while yet. The last of the cross country competition concluded last Saturday. Camberley were sending a team to the Division One fixture which was held in Salisbury.

Sadly there aren't weekly road runs for Masters or Vets over here as there are back in Perth. The closest thing is the Saturday morning Park Run. Nearest for me is the Frimley Lodge Park Run, over 5km. Same course week in, week out! The good thing is that all results are age-graded. Last week was the third anniversary run for FLPR and 262 runners completed the event. The stand out performer is Paula Fudge (W60-64) with a career best of 92.70%.

I hope to make my debut this Saturday and have the

## From Facebook ...

MANY of you already use it, and know that the quickest way to keep in touch with members' performances – especially in non-Masters club events – is via our club's Facebook page. It's accessible from the club website.

Here are some postings from the past month.

#### Busselton Half Marathon

Mickey Muroi 1:28:13, 1st M50;

Frank Gardiner 1:42:14, 3rd M60;

Trish Farr 1:46:27 4th W40;

Karen Hagan 1:48:16 - 10-minute PB;

Jonathon Phillips 1:51:58.

Also Robin King 45:37 in the 10km race, 2nd W50.

#### Hastie wins Open

Garry Hastie is the WA OPEN men's champion in 10km track walk. He won the event at WAAS on February 3 in a time of 58:29.0. Congratulations to our top male race-walker.

(M60-64) record in my sights. It was set in June 2012 so running in winter might be a bit of an ask but, but hope to give it a real shake when the weather improves. The record is a modest, 19:48 @ 80.91%. Achievable, I think, for a West Aussie Master!

Hope you are continuing to enjoy your running and good luck to all members in their endeavours during the Championships.

Still hope to catch up when you come over. Cheers,

Giovanni 'John' Puglisi

### ... and more

Hi Vic,  
GOOD to hear word from home. I bet you enjoyed sunny Hobart!

I was one of 14 first-time runners at the Frimley Lodge Park Run last Saturday and I received a special mention for having travelled the furthest to attend. "All the way from Perth, Australia, a big welcome for....!"

#### Sticky running

Wore my blue, Perth 2016 World Masters Championship cap to advertise the event and our state capital.

The run was very slippery and sticky in parts and made settling into a steady rhythm very difficult. Plenty of chopping and changing stride pattern and leaping over puddles, etc

Aimed to give a good account and also become familiarized with the course for future runs. Thought I could be the first in from my age bracket 60-64 and go around in about 21 minutes.

Managed the former and just missed out on the latter score. Pulled up fine and should be improved by the outing. All considered, should manage to climb up the finishing order this Saturday.

Vic, the Frimley Lodge Park Run website is well set out and perhaps some aspects or ideas of this site may be useful for our Masters site back in WA. I understand that having the same course and distance every week helps make comparisons possible, but compared to our fantastic range of courses and distances, the runs here could very quickly become boring.

The option here to try something different is to run another Park Run in an adjoining county. The layout of the course is certainly different, but the distance is constantly 5km.

Regards, Giovanni

Perth's only Park Run, as far as I know, is the fairly new Saturday morning Claisebrook Cove which attracts several of our members. Notable is Sandra Stockman, and we heard that on February 23 she made the best age-graded performance, 83.43%, and was first woman in 19.25. VW

Vice-President  
Secretary  
Treasurer  
Committee Members (4)

### LIFE MEMBERSHIP NOMINATIONS

### SPECIAL RESOLUTIONS

To amend the Constitution as follows:

(a) by removing the existing definition of 'financial year' from clause 2 and replacing it with the following wording:

'Financial year means a period not exceeding 15 months fixed by the Committee, being a period commencing 1 April 2013 and ending 30 June 2014, and thereafter each period commencing 1 July and ending 30 June in the following year; and

(b) replacing the word 'April' with 'July' in clause 16(1)(b).

### GENERAL BUSINESS

## In My View ...

by the Editor

## Wot, no results?

**THAT'S** right – there will be no State T&F Champs results this year in *Vetrun*.

Instead we're using the power of the internet. The full results will go onto the club website, featured in an edition of TFNL, shortly after the championships finish.

We know that a few members do not have internet access, and so a printed copy of the results will be mailed to you.

## Ironman Brian 2nd in Taupo

**BRIAN** Bennett returned to Taupo, New Zealand, for another successful crack at the Ironman event sponsored by Kelloggs Nutri-Grain.

He was second in the M65 age group in a superb time of 12:29:26, only five minutes or so behind the group winner. His swim time was 1:12:31; the cycle ride took 6:21:00; and the marathon run was completed in 4:34:49. (Transitions added about 21 minutes to Brian's total.)

Now you know why he put in all that pre-race distance in recent Sunday mornings! Congratulations mate.

## Goofy and a Half!

**HAVE** you ever considered doing a half marathon on a Saturday and backing it up with a full marathon the next day? No, few would! But that's the Goofy Race and a Half Challenge, held every January in Disneyland, Florida.

Tracy Koziniec took the challenge this year, ran both the races and now has a just reward – three medals to show, including the prized Goofy Race and a Half Challenge medal.

## New Members – Welcome!

1180 WONG: Jackson M45  
1181 DOWNEY: Tony M55  
1182 INGRAHAN: Todd M35  
1183 CHENG: Ching Siang M35  
1184 BREMNER: Jeffrey M50

**One of my favourite pictures of Brian, taking a lift from team doctor John Bell!**

**We look forward to the inside story on his latest Taupo adventure sometime soon.**

## McCallum Lakes

Colin Smith	M50	19:55
Maurice Creagh	M65	20:06
Gillian Young	W65	20:35

**THE** day started on a better note than was expected. With the easterly blowing the temperature was just under 20°C rather than about 25°C. John and Joan Pellier marked the course even though they were not down as helpers for the run. Many thanks also to other helpers David and Jo (on her birthday), Dalton, Hamish, Val, Helen and Keith, John and Andrea, Blakeney, Scott and Ellie, and Shirley.

The cycle path allowed our 106 athletes to be on a different path to the cyclists but a lot of care was needed at the four cycle path crossings in each 4.2K lap.

With Maree Brown and Sally Floyd agreeing to take on the race director role for Manning Park from 2014 we will be staying with this event.

## Woodman Point Handicap

February 17, 2013

Directors: Karen and Peter March

**THIS was our last run on this course, due to the opening of the Cockburn Surf Club next month.**

We are already marking out the new course for next year's race, to be advised at a later date.

The weather conditions were much more conducive to running today, although it was still very humid.

It was mentioned by a number of runners that the course was a few hundred metres longer than advised. This was a bit of a surprise, as I ran the course a week ago and my Garmin read at 5.01km.

We will make sure the new course next year is spot on or as near as damn it!

We would like to thank all our assigned helpers (Tania Burke drove from Dunsborough to Woodman Point at 4.30am to help) and all who stood in for those absent. As always we could not have directed our race without you.

See you all next year.

# Piney Lakes

February 24, 2013

Director: John Frost

Every starter is in this picture, except the photographer, who took a while to get off the hill! Below, Sandra Stockman flying, second overall, and rightfully elated at her brilliant current form.

PINEY Lakes event followed the same route as in previous years but Bob Schickert has suggested that we reverse the direction as he originally planned it. Another suggestion was to make it into a cross country course by incorporating some of the beautifully landscaped hills in the park – maybe you will see some changes next year.

The skies were blue, the temperature below 20°C and the traditional rain shower nowhere to be seen. Even the ancient boardwalk did not collapse.

The exercising dogs and their owners were well behaved, and we welcomed many visitors (one of whom was Kim Thomas' 12-year-old son, first in by a hefty margin, in the 4km run!).

Many thanks to the willing helpers –

John Frost, backed by Chris Koeman.

Carolyn and Bob Fawcett, Liz Neville, Kim Thomas, Bruce Wilson, Toni Frank, Alan James, Clayton Northey, Steve Hosack, Theresa Howe and also to Karen Peace who pitched in with her family, and the willing volunteers who readily took over odd jobs when necessary.

**Lake Monger**

March 3, 2013

Director: Richard Danks

**WHAT a great day greeted us this morning. Nice and cool and a gentle breeze to refresh the competitors. All this and a well marked course, a level pathway and beautiful outlook! What excellent conditions to aim for a PB!**

Or so we thought. Humidity soon rose to a sticky 57% and every man and his dog (almost literally) also wanted to take advantage of these idyllic conditions. There were bikes, prams, walkers, joggers, dogs, children, and swans all going in different directions on various parts of the footpath. Undeterred by the variety of obstacles our sturdy competitors rose to the occasion and put in some excellent performances

Whilst the baby boomers are raising the average age of participants we are also playing host to a number of younger visitors, from the Keane, Thomas and Roach families, all of whom are showing outstanding potential.

Many thanks to all the helpers, last minute volunteers, and transporters of equipment – too many to mention individually. You each did a fantastic job to ensure another successful event. *Richard*

# The need for speed

HAVING sorted out your long run for the week we can now think about your fast, or speed, session. Just as the long run maintains or builds our aerobic lung capacity the speed session can also improve lungs, fitness and important race times too.

Running fast enough to be puffing hard and barely able to talk means you're stretching your lungs and pushing them to new limits. Blood flow is increased, not only to your lungs, but also to the muscles and ligaments. This pushes us up into the zone of anaerobic exercise – the ability to exercise at high heat rates without recovered breathing.

Having a good anaerobic capacity will assist you to better conclude your races, and to produce the sprint finish, or maybe surges, when you desire. I remember speaking to John Mack before running my marathon. He told me he ran a speed workout consisting of 800 metre repetitions on grass in the last week of his training before his first marathon. He did little else for the week and was able to run well under 3hr 50 at the age of 60.

Along with other runners I also ran a regular weekly speed workout in my preparation for the marathon and feel sure that it helped me. So it appears that even your marathon training can very likely benefit from these speed workouts.

Speed sessions do vary in

## Training Tips

by

Ross Keane

their structure and there are many different sessions to choose from. One common example of a good all round short session is 8-10 x 400 metre repetitions with a 1 to 3 minute stationary rest or walk between each 400. Another example of a session which would be longer is 5 or 6 x 1km repetitions, with the same break as before between each repetition. This would suit those runners who are looking at attempting a longer distance target race such as the 12k City to Surf or similar.

# Helpers and Events

MARCH 9/10  
STATE CHAMPIONSHIPS

MARCH 17  
MANNING PARK CC  
Race Directors: Julie and Greg Wilson - 9339 8626

Gillian Young, Mark Sivyver, Trish Knox, Lorraine Lopes, Bruce Wilson, Sally Floyd, Alison Lilly, Maree Brown

### Mark a circuit

All you need is a track, oval or even just a public open space or path. It is preferable to have a marked athletics track but that is really not essential if you are able to measure out the target distance yourself.

The speed session can be hard going mentally when done by yourself so I recommend you do it in a group with others to help share the pain!. There are a few groups who regularly run speed sessions in Perth. The largest group I'm aware of run a session every Tuesday at Perry Lakes. It is well-organised and starts right on 6pm. This session is varied each week but it is always somewhere between 3.5 and 5km in total distance. It is completed on a firm and even grass surface for those worried about injury. Happy running!

(Keyed by Catherine!)

## ALL HELPERS

Please contact your race director to confirm that you are available for your allocated event. If you are not available, please find a replacement and advise your race director.

## Black Swan Event FINANCIAL PLANNING

Black Swan Event Financial Planning is pleased to again be associated with Masters Athletics WA, supporting the 2013 MAWA State Championships.

### Health and wealth

One of the key challenges of retirement is to make sure our income lasts as long as we do.

As a masters athlete, you put a lot of time and effort into maintaining a healthy body. But is your financial situation equally healthy?

If you can be confident that your income will be ongoing, whatever happens in financial markets, then you can plan and act with certainty and peace of mind, says John Cameron, Principal of Black Swan Event Financial Planning.

"In the 30 years I have been in financial planning and associated areas, many companies have tried various ways

to provide that certainty of income – mostly without success," John says.

"Now, a major institution has come up with a radical new solution which, for a reasonable cost, guarantees income for life. It is transparent and flexible, so you can make capital withdrawals (but they will affect your income), with no loss of capital on death."

If you would like more details or would like a free "health check" of your finances, contact John Cameron or Petrese Ivey at Black Swan Event Financial Planning. Or check the website at [www.blackswanevent.com.au](http://www.blackswanevent.com.au)
